SIGNPRO SOFTWARE AND DVC SETUP Quick install PADS 3.1 Professional

For a quick installation of the PADS 3.1 Professional software, please follow one of the procedures as described below. For an extensive description of the installation, including background information about system requirements, special configurations etc, please consult the installation help file.

Network installation

- 1) **Manager / PADS server:**
 - a) **Plug the hardware key (dongle) into the PADS Server PC.**
Depending on the type of hardware key you must use the USB port or parallel port of the Server PC. Some installations won't require a hardware key.
 - b) **Run the installation program *setup.exe* on the PADS Server PC.**
The setup program can be found on the PADS 3.1 Professional CD-ROM. In the setup choose for a 'Custom' installation and select 'PADS Designer', 'PADS Manager', 'PADS Database/Server' and Tools as the components to install. Optionally, PADS Designer and PADS Manager can be installed on a separate desktop PC.
 - c) **Run the PADS 3.1 Professional License Wizard on the PADS Server PC.**
The license Wizard can be found in the Windows Start menu under (All) Programs, PADS 3.1 Professional, Tools.
- 2) **VIEWER DVC SETUP:**
 - a) Start the DVC. Right mouse click on viewer screen then exit. Set up DVC output resolution to screen resolution. Start viewer. Right mouse click on viewer screen click settings. Set viewer resolution. Next network connection set viewer name and server name or IP address.

For additional information on installation see manuals on PADS 3.1 Professional CD-ROM documentation.

Standalone, non-networked installation (all components on one single PC):

- 1) **Plug the hardware key (dongle) into your PC.**
Depending on the type of hardware key you must use the USB port or parallel port of your PC. Some installations won't require a hardware key.
- 2) **Run the installation program *setup.exe*.**
The setup program can be found on the PADS 3.1 Professional CD-ROM. In the setup choose for a 'Complete' installation.
- 3) **Run the PADS 3.1 Professional License Wizard.**
The License Wizard can be found in the Windows Start menu under (All) Programs, PADS 3.1 Professional, Tools.
- 4) **Start the PADS 3.1 Professional Viewer application.**
To start PADS Viewer double click the shortcut for this application on the desktop. In the PADS Viewer Configuration wizard enter 'localhost' as the name of the Server and enter a name as identification for the viewer.
