

ICS DVC-1

SMALL FOOTPRINT PC

DVC computer series from ICS Technology is a collection of computers which are built around a unique custom chassis. These machines are specially designed for the harsh environments of POS, public display, financial, kiosk, FIDs, PIDs or any situation where an inexpensive, small, rugged computer is necessary. All models come with a 1 Gig CPU. The DVC-1's compact size with its assortment of video outputs and multiple mounting points make this computer the most flexible and efficient solution of its kind.
